(54) Title: MOUNTING PLATE FOR HARNESS

(57) Abstract: The present invention relates to a mounting plate (1) intended for use together with a harness (2). The mounting plate (1) comprises a first opening (8). The invention is characterized in that the mounting plate (1), via the first opening, is arranged in such a way that, when in use, it juts out essentially at right angles from the body of a user (10). The invention also relates to a safety device comprising a mounting plate (1) and a harness (2).
